SUMMARY

MERN Stack Developer with hands-on experience building and deploying full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Built and deployed a Client Project Tracker with JWT-based authentication, role-based access control (RBAC), RESTful APIs, CRUD operations, and MongoDB schema design. Strong in end-to-end feature development, frontend-backend integration, API development, and deployment workflows. Seeking a Junior / Entry-Level Software Developer role; available for immediate joining.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, SQL
Frontend: React.js, HTML, CSS, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, REST APIs, JWT Authentication
Databases: MongoDB, PostgreSQL, MySQL
Tools: Git, VS Code, Postman

EXPERIENCE

MERN Stack Developer (Internship Experience) <i>Tech Pile Technology Pvt. Ltd.</i>	Sep 2024 – Mar 2025 <i>Lucknow Uttar Pradesh</i>
- Developed and maintained full-stack modules using React, Node.js, Express, and MongoDB - Built RESTful APIs with JWT-based authentication and role-protected routes - Created MongoDB schemas and implemented controller-based backend architecture - Collaborated with senior developers to deliver production features and fix bugs in live applications	

PROJECTS

Client Project Tracker <i>React, Node.js, Express.js, MongoDB, TypeScript</i>	Dec 2025 – Present
- Built a full-stack application to manage clients and track project status end-to-end. - Create REST APIs for client and project CRUD operations with relational mapping - Implemented deployment workflows using Netlify, Render, ensuring live access and reliability. - Developed responsive UI dashboards for tracking project progress and updates. - Deployed frontend and backend for live usage.	
Hospital Management System <i>React.js, Node.js, Express.js, MongoDB</i>	Jan 2025 – Mar 2025
- Planned and enhanced a full-stack Hospital Management System to manage patients, doctors, appointments, and billing workflows. - Built RESTful APIs for patient registration, appointment scheduling, medical records, and billing CRUD operations. - Designed MongoDB schemas with relational references for patients, doctors, appointments, and treatment records. - Improved responsive React dashboards for hospital operations and real-time data management. - Integrated frontend and backend with secure API communication, validation, and error handling.	

EDUCATION

Bachelor of Technology in Computer Science <i>Rameshwaram Institute of Technology and Management (AKTU)</i>	2021 – 2025 <i>Lucknow, Uttar Pradesh</i>
Data Structures, Algorithms, Database Management Systems, Operating Systems, Computer Networks
